

Montréal QUÉBEC

We offer value-added port logistics at this fully renovated facility, located within minutes of the Port of Montréal's largest container terminals. Paving throughout our laydown area allows us to handle large shipments and a diversified cargo base that includes project cargo, out-of-gauge pieces, and general cargo such as steel, forest products, granite, and mineral concentrates.

MtlLINK provides flexible working hours and a variety of safe, controlled storage options, including a paper-grade warehouse with direct access to rail.
